Chunshan Song recognized by the Catalysis Club of Philadelphia

Thursday, September 22, 2011

The Catalysis Club of Philadelphia selected Dr. Chunshan Song, director of the EMS Energy Institute and distinguished professor of fuel science, as the recipient of the 2011 Excellence in Catalysis Award. He was recognized during the spring symposium in May 2011 for his accomplishments to the field of catalysis on sulfur removal from hydrocarbon mixtures and hydrocarbon conversion for energy oriented processes.

Each year the Catalysis Club of Philadelphia, a founding section of the North American Catalysis Society, recognizes an outstanding member of the catalysis community who has made significant contributions to the advancement of catalysis. As this year's recipient, Dr. Song presented an award lecture during the September 2011 meeting titled, "Oxygen Enhanced Water Gas Shift Over Bimetallic Catalysts for More Efficient Hydrogen Production."
