EMS Energy Institute Announces Energy Seminar Series

Tuesday, December 18, 2012

The EMS Energy Institute is hosting a new seminar series, Energy Exchange, as part of the Institute's outreach mission. The seminars focus on highly relevant energy topics, especially in the area of fossil fuels. Energy topics discussed include new innovations in carbon dioxide utilization, clean coal, petroleum and natural gas, fuel cells, and more.

For Spring 2013, the theme is clean energy and the seminars will be held every other Wednesday beginning on January 16. Speakers include Penn State faculty as well as government and industry professionals. The talks will take place from 10 am to 11 am in C213 Coal Utilization Laboratory. Students and faculty will also have the opportunity to meet with external speakers prior to or following the talks.

For more information on the speakers and topics visit the [Energy Exchange](#) ^[1] section of our website.
