

SEMINAR

"THE MATERIALS CHARACTERIZATION LAB"

Jeff Shallenberger

Director, Materials Characterization Lab

Assistant Director, Materials Research Institute

The Materials Characterization Lab is a user facility administered by the Materials Research Institute. MCL offers a range of analytical techniques including: microscopy, chemical analysis, surface analysis, thermal analysis, powder characterization and structural analysis. This seminar will discuss how to access the facility, prices, capabilities and new instrumentation. Particular emphasis will be given to applications pertinent to the Energy Institute.

Thursday, July 10, 2003

10:30 AM - 12:00 PM

C213 Coal Utilization Laboratory

Refreshments will be served at 10:15 AM

Lunch will be served at 12:00 PM

Jeff and colleagues will be available during lunch

For informal discussions
